

Bicycles on SJ trains – June 15th to August 17th 2008

Between June 15th and August 17th 2008 it will be possible to bring your bicycle in some SJ trains.

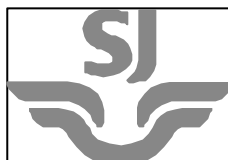

- Maximum 4 bicycles can be transported in each train and for each origin-destination.
- The bicycles are transported from the departure station of the train to the final arrival station of the train, i.e. it is not possible to load and unload the bicycle on intermediate stations between the departure station and the final arrival station.
- The trains where bicycles can be transported are listed below. Please observe that some origins-destinations will be added – check the correct list on www.sj.se.
- SJ is cooperating with JAB Expressgods . The bicycle is transported in the same train as yourself and has to be delivered to JAB Expressgods **at the latest 30 minutes before departure of the train**. The bicycle can then be collected when your train has arrived to its final destination. Adresses and phone numbers to JAB Expressgods can be found in the enclosed list.
- Price: 112 SEK per bicycle and per origin-destination (+ tickets for yourself).
- These bicycle tickets can only be bought at SJ Resebutik (SJ's own sales offices) and SJ's callcentre (+46) 0771-75 75 75.

Bicycles in the Øresund trains

There is a limited amount of bicycle storage space on the Oresund trains serving the Gothenburg-Copenhagen and Kalmar-Alvesta-Copenhagen routes. Book a space for your bike with your train ticket on (+46) 0771- 75 75 75 or at SJ Resebutik. If you wish to take your bike on a train in Skåne, the local transport provider (Skånetrafiken) reserves a certain amount of space on the Pågatågen train.
